### **CONVERGENCE.**

Optimize your omnichannel marketing strategy using all the acquisition channels that A3P offers: event, online and offline.

### QUALITY.

For many years we have been working on building a clean «manufacturers» and «suppliers» data base. It is the heart of A3P activities and we provide every day to keep our data updated.

### SEGMENTATION.

Our contact data base is segmented for your email campaigns. You can select your categories and/or business units to create a targeted emailing program.

# DATA BASE

TIP

# + 53 000 targeted contacts\*

2025

### TARGETING.

The www.a3p.org website can powerfully boost your communication.

It is more than 15,000 monthly visits for a total of more than 57,000 pages are consulted per month.

100% of the visitors are Pharma and Biotech professionals from all over the world.

### ROI.

Over the past few years we have built an online strategy working within all the digital channels. Our website, newsletter and LinkedIn accounts are part of our daily work and provide news from our fields and A3P events.

Be part of the online channels convergence and thus strengthen your customer relationship and convert prospects!

### **IMAGE.**

La Vague is printed on high quality paper that you can associate with your company image. Clear and illustrated layout, optimal print quality, each issue is distributed to members of the A3P network, as well as at all A3P events.

The digital version can be viewed and downloaded in PDF format at www.a3p.org. For each number, 2 newsletters are sent to all of our contacts in our CRM.

### IMPACT.

La Vague is the quaterly reference magazine of Pharma and Biotechs. We offer our readers technical, scientific and regulatory content, validated by a reading committee made up of experts.

Barrier technology, Freeze drying, Bioproduction, particles, Subcontracting, Blow Fill Seal, Contamination

Control, process, GMP, Quality, IS, Cleaning validation, Robotics, Analytics, MD, Remote audit, Annex 1, Regulatory ... are the main topics covered. Feedback, innovations, studies, ... each issue is addressed in a very concrete way.

### **RESULTS.**

Whatever your strategic objectives, La Vague offers you the possibility of reaching your targets. **Our readers are your customers!** 

A true medium that suits your communication needs, your brand and / or products, our readers are mainly manufacturers with an audience of more than 53,000 professionals from the pharmaceutical, biotechnology and biomedical industries.

 ${\sim}8\ 600$  copies/year routed to members' mailboxes and A3P contacts and distributed at all A3P events.

 $\sim$ 51 000 professionals from the Pharma, Biotech and MD industries get the print version and/or the digital issue.

# **TERMS & CONDITIONS**

La Vague is a free quarterly magazine published by A3P Association.

- 1 Purchase of an advertisement space implies acceptance of our terms and conditions of sales and following instructions.
- 2 Advertisers may use an advertising agency who must present written authorization to the advertiser and a copy of this authorization to the publisher. In such cases, the advertiser can benefit from a professional discount of 15%. However, the advertiser remains responsible for payment, even if the advertising agency is charged with the financial relay.
- 3 The advertiser releases the editor of any civil responsibility that may occur as a result of the publication. He will be compensated for any prejudices that he may suffer and guarantees against any action regarding the advertisement(s).
- 4 The publisher is free to refuse to include an advertisement without needing to justify his refusal,in accordance with regulations for the General Uses of Press.
- 5 The publication dates are communicated by the publisher for information purposes only.
- 6 The advertiser can cancel the publication order. Cancellation must be made 8 weeks before the publication date and 12 weeks before publication for back cover advertisement. Cancellation costs correspond to 20% of the amount of the order. In the case of cancellation after the deadlines, 80% of the amount of the order will be charged.
- 7 Any changes to the type of order could imply a modification of the price, based on the standard fees.
- 8 Technicals contraints : Any advertisement should be sent to the publisher in accordance with the requirements and specifications of the technical constraints. The advertisement's technical elements must be sent by the advertiser to the publisher electronically or digitally, with the colour proof, 10 days before

it is sent to the printer. If the advertiser and/or his representative do not observe the scheduled delivery dates, the elements from the previous advertisement will be reused. If the publisher does not have any elements from the advertiser, such as in the case of first publication, the publisher will publish a blank advertisement space with the indication «Company X» (X being the name of the advertiser's company) in the advertiser's dedicated space. In this case, the publisher will charge the advertiser's dedicated space. All numeric content or any documents provided by the advertiser to the publisher must be claimed within 6 months after the last publication. After this period, no liability will be assumed by the publisher for the destruction or loss of the numeric content or documents.

- 9 Invoicing will be done in the name of the advertiser. It will be sent to him with a copy to the agent. It may be, upon express request to the agent. In this case, a copy will be sent to the advertiser. The advertiser is, in all cases, responsible for the payment of the advertising order in cash as soon as it appears.
- 10 In the case of late payment, the order for inclusion may be suspended and penalties will be charged at the rate of one and a half times the rate of current legal interest according to the French law n° 92.1442, 31-12-1992.
- 11 Disputes: any complaints must be made within15 days after the receipt of the invoice with proof.
- 12 When a complaint is justified, the publisher's liability is limited to the value of an equivalent advertisement, published as soon as possible, at the choice of the publisher.
- 13 Taxes: the prices indicated in the tariffs are exclusive of VAT. Any new taxes on advertising would be the responsibility of the advertiser.
- 14 Disputes: the Commercial Court of Lyon is the sole jurisdiction with competency to settle disputes that may occur between the publisher and the advertiser and / or its representatives.
